1200 SERIES

Manual Grinder

M

SPECIFICATIONS

The Manual Grinder is a cost-saving alternative for conventional grinding and deburring machines. The sanding head can accommodate two separate mounting systems. Using a hook/loop mounting pad on one side (for heavy grinding), with a brush on the other (for edge rounding/deburring); the head easily rotates 180 degrees to change between these two options.

Larger parts are held in place by the high friction table, while smaller parts are held in place using the vacuum hold down. The sanding head is suspended by the stabilized arm to increase ergonomics and decrease operator fatigue.

SPECIFICATIONS	Manual Grinder
Working Area	50" x 30"
Working Height	38.5"
Vacuum Area	12" x 10"
FLA @ 230v	8 FLA
Compressed Air	N/A
L x W x H	53" x 35" x 59"
Weight	506 lbs
